

F.Cornish

Has Your Watercraft Been Outside of BC in the Last 30 Days?

YES. See other side.

NO. Avoid transporting aquatic invasive species around BC by cleaning your watercraft. To find a location near you: www.gov.bc.ca/invasivemussels

Aquatic invasive species (AIS), including Parrot's feather and Eurasian milfoil, threaten BC waterways causing widespread impacts and costing millions of dollars each year to control.

CLEAN
plants, animals
and mud from
your boat and gear

DRAIN
all water from
your boat and
gear onto land

DRY
all parts of your
boat and gear
completely

Has Your Watercraft Been Outside of BC in the Last 30 Days?

NO. See other side.

YES. Then your watercraft may be transporting invasive mussels that can cause devastating impacts to BC's economy, environment and recreational values.

IF YOUR WATERCRAFT HAS BEEN IN A MUSSEL-INFESTED PROVINCE OR STATE IN THE LAST 30 DAYS...

**REPORT IT!
IT'S THE LAW.**

DO NOT attempt to clean the watercraft yourself!

Your watercraft may require decontamination.
